Stop the New Mega-Prisons!

The government plans to build a new prison in Greater Manchester; the first in the city for 20 years, & the first in a new wave of 9 "Mega Prisons" proposed across England and Wales by 2020.

Locking people up wastes money which could be better-spent on healthcare and social programs — proven to be more-effective solutions to the issues that lead to arrests & convictions.

Join the struggle against the prison profiteers, and help build stronger communities instead of more prisons!

Hosted by **Manchester Industrial Workers of the World** & the **Incarcerated Workers Organising Committee** (E/W/S). Please contact us on **manchester@iww.org.uk** if you have any accessibility questions (including travel or childcare; we can help with costs).
